Hi ! My name is Nathan, an Artistic Director with 5 years of experience and a passion for well-aligned pixels! As a Motion Designer and UX/UI specialist, I create experiences that captivate users. Between these creative projects, I dedicate myself to other tasks with the same rigor. Passionate about cinema, sports (to avoid merging with my chair), and travel (always in search of inspiration), I'm ready for a new international adventure. Need a creative to energize your projects? I would be delighted to contribute to your success!
